MONITORING AND REPORTING

SCOPE: This policy applies to McGregor PACE, including all its providers, caregivers, employees, staff, contractors, vendors, students, trainees, and any other individual or entity acting under, for, or on behalf of McGregor PACE and/or its affiliates.

PURPOSE: The purpose of this policy is to establish a framework and provide a process for monitoring and reporting both aggregate and individual PACE quality data to CMS in accordance with the requirements of Title 42 of The Code of Federal Regulations, §§460.140, 460.200(b)(1), 460.200(c) and 460.202.

POLICY: In order to maintain its commitment to assuring compliance with all state, federal, and local laws and state and federal regulatory requirements, it is the policy of McGregor PACE to timely report all PACE quality data to CMS through the PACE Quality Monitoring Module in the Health Plan Management System in accordance with the requirements of Title 42 of The Code of Federal Regulations, §§460.140, 460.200(b)(1), 460.200(c) and 460.202.

Protections are provided in two important areas for those who make reports of non-compliance: confidentiality and no retaliation. Circumstances permitting, the confidentiality of the individual making the report will be maintained. However, identity may have to be disclosed to conduct a thorough investigation, comply with the law, and/or to provide the accused individual(s) their legal right of defense. McGregor will not retaliate against any individual making a report of non-compliance. This includes, but is not limited to, protection from retaliation in the form of an adverse employment action such as termination, compensation decreases, or poor work assignments and threats of physical harm. Any individual who believes that he or she is being retaliated against must contact the Director of Human Resources or the Compliance Officer immediately. The right of an individual to make a report of non-compliance for protection against retaliation does not include immunity for bad faith or any personal wrongdoing that is alleged and investigated.
