

Intern Profile

Brandon Rock

Brandon is in the social services master program at Case Western University. He is expecting to graduate in Spring 2025. Brandon is interning at McGregor as a social services intern for Summer 2024. After graduation, Brandon would like to be a therapist in a geriatric setting, where he can continue showing empathy and compassion through difficult decisions in others' lives.

Brandon was interested in this position because of the reputation that McGregor holds in the Cleveland area. He received amazing reviews from other students at Case Western, which solidified his decision for this internship. Brandon has worked mainly on trauma assessments for residents to ensure that they are receiving the proper care that they deserve.

He is proud to learn the professional vocabulary for this industry while working on assessments and how to properly address assessment questions to the residents.

Thank you for your time here at McGregor, Brandon, and best of luck to you in the future!
