*A Collaboration for a
Special Kind of Care*

Bridge Program

What is the *Bridge Program?*

The Bridge Program is designed to offer support to anyone who is managing a life limiting illness.

The Bridge Team helps participants navigate important aspects like setting care goals, making informed decisions, planning for advanced care, and preparing for future steps. Through monthly visits and palliative care, the program also offers strategies to promote comfort and resources to help you better understand the progression of your condition.

If you have been coping with a life limiting condition, you may have asked yourself one or more of the following questions:

- What are my goals of care?
- Have I made my advanced directive wishes known?
- Do I qualify for hospice? And if so, am I ready for hospice?
- Are my affairs in order?
- What should I expect as my disease progresses?
- How do I want to live the remainder of my life?

Coming to terms with a life-threatening illness can bring about fear, anxiety and concerns. The hand in hand support offered by the Bridge Team allows Hospice of Greater Cleveland to work with you and your physician to make a smooth transition to hospice when and if the time is right.
